

3-IN-1 SOLUTIONS

Volume unit with post-heater/post-cooler
and attenuator

Round

Rectangular

Use

The Solid Air 3-in-1 solutions consist of a combination of a variable or constant-volume unit, heater and/or cooler, and attenuator and they can be adjusted to any specific situation. These compact solutions are particularly suitable for subsequent control in a room. Control is possible with room controllers of any manufacturer; on temperature, air quality or both.

3-in-1 solution round

An example of our 3-in-1 solution round is to combine a variable-volume unit type VVOOMOS with an attenuator type AGRYVO and a post-heater type AH2RRR.

3-in-1 solution rectangular

An example of our 3-in-1 solution rectangular is to combine a variable-volume unit type VRVISOS with an attenuator type AGCWR4 and a post-heater type AH2KK.
