Notes

* Article numbers are only given when it concerns a product that was available in our ERP on the version date. GTIN numbers are only available for standard products.

Possible configurations

The duct is specifically designed for the BDHN and BDVN design penthouse louvre. The order size is based on the same order size as these penthouse louvres. The duct is available for order sizes LxW from 600x600 up to and including 2400x1800, in increments of 50 mm. The ducts have a length of 500 mm.
